

STATEMENT OF CONFIDENTIALITY

Management must be flexible in the administration and application of its policies and procedures. Management reserves the right to change and revise the policies and procedures at its discretion without notice and when the Hospital determines that such action is necessary.

Due to the nature of medical practice, you may be exposed to privilege information concerning patients and their treatment.

All patient, customer, employee or system information is strictly confidential.

My signature indicates, I understand that my breach of any or all of the above contained herein, or my unauthorized disclosure of any confidential information could result in termination of services/approval to function within St. Vincent's East facility.

Signature: _____
